

Mach[®] 3

Coin sorter/counter/packager

Efficient coin processing for tabletop or portable applications

The optimization of cash management calls for specialist experience, resources and truly innovative technology. Across the world, Talaris' cash management solutions are trusted by thousands of organizations to ensure their cash is managed securely and efficiently while delivering the ultimate in productivity.

The Mach 3 is a versatile, cost efficient, compact coin processor that simplifies and speeds coin processing for any business that counts, sorts, or packages coin.

Mach 3 pictured with large capacity "mega" coin drawers

With best-in-class speed, Talaris' Mach[®] 3 is a compact commercial grade coin processor that is fast, accurate and versatile.

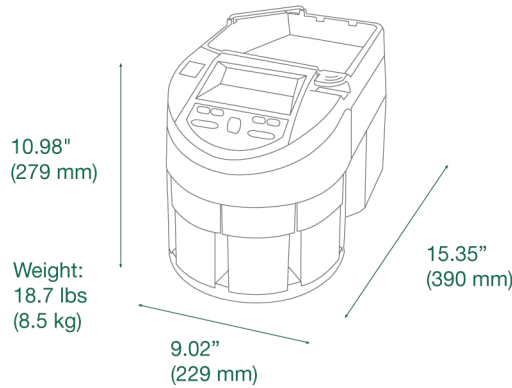

to count tills, especially in retail locations where a large number of cashiers are employed. The compact design of the Mach 3 and the optional carrying case make it easy to transport between locations.

Optimal speed and accuracy

The simplicity of the patented Figure 8 technology provides optimal and accurate sorting at 1,500 coins per minute. This makes the Mach 3 one of the fastest in its class.

Versatile options to meet your needs

Coins can be sorted into drawers, bags or tubes for rolling. When the tubing option is used, coin can be sorted first and then rolled by denomination, or it can be done in one easy step. The cash till sorting kit (not pictured) is also a fast way

(Coin tubing option)

(Table-top bagging configuration)
